Dear Mag. Wetschnig,

I beg you to read the letter Jugendamt sent to you.

My wife refused to have the meetings organized and paid by Jugendamt because Jugendamt wanted to appoint a new neutral supervisor.
She preferred to pay herself because she wanted only Mr. Hornbogner to be the supervisor. After I met Mr. Hornbogner on the 7th of September – I paid for this meeting - I reported to Jugendamt that this man is not there for the welfare of my children but to serve the wishes of Christina Hohenwarter and I didn't want him to supervise my meetings again. I asked instead for Mr. Fux who supervised my first two meetings. I did not know who Mr. Fux was. But I knew that he was there for the children and not to please the wishes of Christina Hohenwarter.
My wife refused to cooperate with Jugendamt.

Christina Hohenwarter preferred to pay herself 84 euro per hour to have Mr. Hornbogner as supervisor against my will than allowing Jugendamt to finance the meetings with another supervisor.
Please Mag. Wetschnig, ask yourself why?
And then I beg you to answer this question: "does the report of Mr. Hornbogner reflect reality?"

I love my children and I live in poverty since June 2020 for only one reason: to be there for them as I were there for them for seven and a half years.
But she doesn't let me my children be with me.

Best regards,
Christos Nanouris

PS

On the 10th of January 2019, she testified in your court that on the morning of 28th of December 2018, she announced to me that she would divorce me and she would go with her mother for 2 whole days to Tuffbad and leave me alone in Pressegger See with our children for 2 whole days.
Did she have any fear that I would kidnap our children?
If I wanted to kidnap our children would I do this in front of her eyes or I would wait until she is with her mother in Tuffbad?

She also testified that this morning I had cornered her in the bathroom and assaulted her with such aggression that she had Todesangst.
But 5 minutes later she called the police because I would kidnap our children and not because I had assaulted her and she had Todesangst!!!!!!
The truth is that on this morning I was begging her not to destroy our family Mag. Wetschnig, as I was begging her for six whole months until the 21st of June 2019 that I sent you this email about Dr. Bendele.
Her father is behind the destruction of our family.
And I can prove this too.
